

McIDAS-V Support for GOES-R Risk Reduction Projects

Tom Rink, Tom Achtor

- **McIDAS-V developers will work with selected GOES-RRR projects to**
 - **Visualize all data used in project development and evaluation**
 - **Develop analysis tools to support evaluation**

McIDAS-V Support for GOES-R Risk Reduction Projects

- **Task 1 – Support for CIMSS Nowcasting Project**
 - Develop enhancements to trajectory display
 - Support validation of trajectories vs. model fields
 - Seek an isentropic coordinate display (years 2-3)
- **Task 2 – Survey and Identify additional projects**
 - Survey all RRR projects for analysis and visualization needs; report on this survey
 - Create collaboration with specific RRR team(s) and develop enhancements in McIDAS-V to support their project.
