

# All Hands Update

## OCONUS Satellite Support Scientist

- 2014 OCONUS site meeting in Honolulu
  - New proving ground initiative for OCONUS in upcoming JPSS PGRR call
  - New OCONUS teleconferences starting soon
  - 2015 OCONUS site meeting in Anchorage (May)
- On-site support to CPHC ahead of Hurricane Iselle
  - Media interviews
  - Renewed need for GOES-West RSO capability for OCONUS
- Code updates to AWIPS II
  - Increased true color capabilities
  - Regionalsat plug-in support for Lambert Conformal with two standard latitudes
- Meeting with EMC on sky cover
- Liaison visit to CIRA and FDTB

# All Hands Update

## OCONUS Satellite Support Scientist

- New proposed meeting structure
  - Less long all hands meetings
  - New focused, shorter meetings
- Response to common cooperative institute complaint that number of PG meetings is too high, meetings are too long (high personnel cost)
- More routine oversight of liaison activities
- Decreased meetings + predictable schedule + importance = high attendance
- Liaisons will rotate through site visits with CIMSS, CIRA, and SPoRT every three years (one site per year)
- No change to in-person meetings, “tag ups”

# All Hands Update

## OCONUS Satellite Support Scientist

Month	First Monday	Third Monday (?)
January	All hands	PM/NOAT, liaisons
February	CIMSS, liaisons	Training, liaisons
March	CIRA, liaisons	<b>OCONUS</b>
April	SPoRT, liaisons	Liaisons only
